Keypasco and Lydsec Partner Up to Provide the Greater China Region with the Keypasco Secure Authentication Solution

Gothenburg, September 21, 2012 – Keypasco announces a partnership with Lydsec to offer the Greater China Region the Keypasco secure authentication solution. Keypasco is happy to have Lydsec as a partner and Keypasco representative. This partnership will fully integrate the Keypasco software and knowledge with Lydsec market expertise.

A complete step-by-step integration process with personal assistance will be the result experienced by the customers. With Lydsec's market expertise Keypasco's customers can relax knowing the contact with this secure authentication solution and Keypasco's software will be provided in a convenient manner, adjusting language skills and culture knowledge to the Greater China Region.

The Keypasco multi-factor strong software allows a customer's users to use personal devices, wherever they wish to go, securely and convenient for a low annual cost. The software is easily installed on the device and will work on the customers' service pages and securely provide access though encoded transaction data needed for identity verification, which are displayed on the screen. Once verified, users can easily and securely access and use any provided service.

"We aim to provide the Keypasco ID Solution cloud service to the mass public in the Greater China Region," commented Chengi Lin, Chief Operating Officer at Lydsec.

"Lydsec provides strong local contacts in Taiwan within eCommerce, online gaming, banking as well as government, which are in line with our ambitions for Keypasco." added Maw-Tsong Lin, Chief Executive Officer at Keypasco. *"We strongly believe this partnership will quickly show good results."*

About Lydsec

Lydsec is a distributor of Keypasco AB in the Greater China sector, where the primary business is the promoting and distributing of the Keypasco ID Solution. The core concept of Lydsec is to provide cloud services to the mass public.

About Keypasco

We are at the heart of our rapidly changing digital culture. As with all paradigm shifts, there will be new challenges. Some of the largest challenges with cloud services are security and integrity, crucial factors for success and sustainability. With more than 20 years of individual experience in IT security, Keypasco's founders are the minds behind some of the revolutionary two factor authentication technology solutions used by leading Internet banks today.

Keypasco develops secure software, which is designed and customized to be used on trusted devices. Keypasco manage the software though its entire lifecycle, as well as the confidential data it contains. We deliver on the society's expanding needs for personal authentication services, identity protection, authenticated online services, cloud computing access, eCommerce, eGovernment and eBanking services. Keypasco's vision is to be a leading supplier of services for securing cloud services.
